This Interdepartmental report is produced Monday to Friday to provide a 24hr snapshot of the preceding day's activity. It is produced using information provided by the RCMP and the Global Case Management System (GCMS) as of the previous midnight. The report is distributed widely to senior leaders in the CBSA, RCMP, IRCC, Public Safety Canada and the Privy Council Office.

Claimants apprehended by the RCMP may be processed by either the CBSA or IRCC depending upon regional agreements, therefore RCMP numbers may appear in either CBSA or IRCC processing results.

In addition to the report, major events involving the CBSA are reported in near real time using the CBSA Significant Event Notification System. Information may be forwarded to federal operations centres using established information sharing agreements and thresholds, or to specific addressees external to the CBSA as approved by CBSA senior management.

A weekly dashboard produced by IRCC provides a more comprehensive update of asylum claim related data.

Ce rapport interdépartemental est produit du lundi au vendredi afin de fournir un aperçu de l'activité des 24 heures du jour précédent. Il est compilé à l'aide d'information fournie par la GRC et le Système Mondial de Gestion des Cas (SMGC) telle que disponible à minuit. Le rapport est distribué parmi la haute gestion de l'ASFC, de la GRC, de l'IRCC, de Sécurité Publique Canada, et du Bureau du Conseil privé.

Les demandeurs interceptés par la GRC peuvent être traités soit par l'ASFC ou par l'IRCC selon les ententes régionales, donc les nombres de la GRC peuvent apparaître dans les résultats de traitement de l'ASFC ou de l'IRCC.

En plus du rapport, les événements majeurs impliquant l'ASFC sont rapportés en temps presque réel par l'entremise du système d'avis d'événements significatifs. L'information peut être transmise à des centres d'opération fédéraux selon les ententes mutuelles établies et leurs seuils minimaux, ou à des adresses spécifiques en-dehors de l'ASFC tel qu'approuvé par la haute gestion de l'ASFC.

Un tableau de bord hebdomadaire produit par l'IRCC offre une mise-à-jour plus détaillée des données liées aux demandes de refuge.

This Interdepartmental report is produced Monday to Friday to provide a 24hr snapshot of the preceding day's activity. It is produced using information provided by the RCMP and the Global Case Management System (GCMS) as of the previous midnight. The report is distributed widely to senior leaders in the CBSA, RCMP, IRCC, Public Safety Canada and the Privy Council Office.

Claimants apprehended by the RCMP may be processed by either the CBSA or IRCC depending upon regional agreements, therefore RCMP numbers may appear in either CBSA or IRCC processing results.

In addition to the report, major events involving the CBSA are reported in near real time using the CBSA Significant Event Notification System. Information may be forwarded to federal operations centres using established information sharing agreements and thresholds, or to specific addressees external to the CBSA as approved by CBSA senior management.

A weekly dashboard produced by IRCC provides a more comprehensive update of asylum claim related data.

Ce rapport interdépartemental est produit du lundi au vendredi afin de fournir un aperçu de l'activité des 24 heures du jour précédent. Il est compilé à l'aide d'information fournie par la GRC et le Système Mondial de Gestion des Cas (SMGC) telle que disponible à minuit. Le rapport est distribué parmi la haute gestion de l'ASFC, de la GRC, de l'IRCC, de Sécurité Publique Canada, et du Bureau du Conseil privé.

Les demandeurs interceptés par la GRC peuvent être traités soit par l'ASFC ou par l'IRCC selon les ententes régionales, donc les nombres de la GRC peuvent apparaître dans les résultats de traitement de l'ASFC ou de l'IRCC.

En plus du rapport, les événements majeurs impliquant l'ASFC sont rapportés en temps presque réel par l'entremise du système d'avis d'événements significatifs. L'information peut être transmise à des centres d'opération fédéraux selon les ententes mutuelles établies et leurs seuils minimaux, ou à des adresses spécifiques en-dehors de l'ASFC tel qu'approuvé par la haute gestion de l'ASFC.

Un tableau de bord hebdomadaire produit par l'IRCC offre une mise-à-jour plus détaillée des données liées aux demandes de refuge.

This Interdepartmental report is produced Monday to Friday to provide a 24hr snapshot of the preceding day's activity. It is produced using information provided by the RCMP and the Global Case Management System (GCMS) as of the previous midnight. The report is distributed widely to senior leaders in the CBSA, RCMP, IRCC, Public Safety Canada and the Privy Council Office.

Claimants apprehended by the RCMP may be processed by either the CBSA or IRCC depending upon regional agreements, therefore RCMP numbers may appear in either CBSA or IRCC processing results.

In addition to the report, major events involving the CBSA are reported in near real time using the CBSA Significant Event Notification System. Information may be forwarded to federal operations centres using established information sharing agreements and thresholds, or to specific addressees external to the CBSA as approved by CBSA senior management.

A weekly dashboard produced by IRCC provides a more comprehensive update of asylum claim related data.

Ce rapport interdépartemental est produit du lundi au vendredi afin de fournir un aperçu de l'activité des 24 heures du jour précédent. Il est compilé à l'aide d'information fournie par la GRC et le Système Mondial de Gestion des Cas (SMGC) telle que disponible à minuit. Le rapport est distribué parmi la haute gestion de l'ASFC, de la GRC, de l'IRCC, de Sécurité Publique Canada, et du Bureau du Conseil privé.

Les demandeurs interceptés par la GRC peuvent être traités soit par l'ASFC ou par l'IRCC selon les ententes régionales, donc les nombres de la GRC peuvent apparaître dans les résultats de traitement de l'ASFC ou de l'IRCC.

En plus du rapport, les événements majeurs impliquant l'ASFC sont rapportés en temps presque réel par l'entremise du système d'avis d'événements significatifs. L'information peut être transmise à des centres d'opération fédéraux selon les ententes mutuelles établies et leurs seuils minimaux, ou à des adresses spécifiques en-dehors de l'ASFC tel qu'approuvé par la haute gestion de l'ASFC.

Un tableau de bord hebdomadaire produit par l'IRCC offre une mise-à-jour plus détaillée des données liées aux demandes de refuge.

This Interdepartmental report is produced Monday to Friday to provide a 24hr snapshot of the preceding day's activity. It is produced using information provided by the RCMP and the Global Case Management System (GCMS) as of the previous midnight. The report is distributed widely to senior leaders in the CBSA, RCMP, IRCC, Public Safety Canada and the Privy Council Office.

Claimants apprehended by the RCMP may be processed by either the CBSA or IRCC depending upon regional agreements, therefore RCMP numbers may appear in either CBSA or IRCC processing results.

In addition to the report, major events involving the CBSA are reported in near real time using the CBSA Significant Event Notification System. Information may be forwarded to federal operations centres using established information sharing agreements and thresholds, or to specific addressees external to the CBSA as approved by CBSA senior management.

A weekly dashboard produced by IRCC provides a more comprehensive update of asylum claim related data.

Ce rapport interdépartemental est produit du lundi au vendredi afin de fournir un aperçu de l'activité des 24 heures du jour précédent. Il est compilé à l'aide d'information fournie par la GRC et le Système Mondial de Gestion des Cas (SMGC) telle que disponible à minuit. Le rapport est distribué parmi la haute gestion de l'ASFC, de la GRC, de l'IRCC, de Sécurité Publique Canada, et du Bureau du Conseil privé.

Les demandeurs interceptés par la GRC peuvent être traités soit par l'ASFC ou par l'IRCC selon les ententes régionales, donc les nombres de la GRC peuvent apparaître dans les résultats de traitement de l'ASFC ou de l'IRCC.

En plus du rapport, les événements majeurs impliquant l'ASFC sont rapportés en temps presque réel par l'entremise du système d'avis d'événements significatifs. L'information peut être transmise à des centres d'opération fédéraux selon les ententes mutuelles établies et leurs seuils minimaux, ou à des adresses spécifiques en-dehors de l'ASFC tel qu'approuvé par la haute gestion de l'ASFC.

Un tableau de bord hebdomadaire produit par l'IRCC offre une mise-à-jour plus détaillée des données liées aux demandes de refuge.

This Interdepartmental report is produced Monday to Friday to provide a 24hr snapshot of the preceding day's activity. It is produced using information provided by the RCMP and the Global Case Management System (GCMS) as of the previous midnight. The report is distributed widely to senior leaders in the CBSA, RCMP, IRCC, Public Safety Canada and the Privy Council Office.

Claimants apprehended by the RCMP may be processed by either the CBSA or IRCC depending upon regional agreements, therefore RCMP numbers may appear in either CBSA or IRCC processing results.

In addition to the report, major events involving the CBSA are reported in near real time using the CBSA Significant Event Notification System. Information may be forwarded to federal operations centres using established information sharing agreements and thresholds, or to specific addressees external to the CBSA as approved by CBSA senior management.

A weekly dashboard produced by IRCC provides a more comprehensive update of asylum claim related data.

Ce rapport interdépartemental est produit du lundi au vendredi afin de fournir un aperçu de l'activité des 24 heures du jour précédent. Il est compilé à l'aide d'information fournie par la GRC et le Système Mondial de Gestion des Cas (SMGC) telle que disponible à minuit. Le rapport est distribué parmi la haute gestion de l'ASFC, de la GRC, de l'IRCC, de Sécurité Publique Canada, et du Bureau du Conseil privé.

Les demandeurs interceptés par la GRC peuvent être traités soit par l'ASFC ou par l'IRCC selon les ententes régionales, donc les nombres de la GRC peuvent apparaître dans les résultats de traitement de l'ASFC ou de l'IRCC.

En plus du rapport, les événements majeurs impliquant l'ASFC sont rapportés en temps presque réel par l'entremise du système d'avis d'événements significatifs. L'information peut être transmise à des centres d'opération fédéraux selon les ententes mutuelles établies et leurs seuils minimaux, ou à des adresses spécifiques en-dehors de l'ASFC tel qu'approuvé par la haute gestion de l'ASFC.

Un tableau de bord hebdomadaire produit par l'IRCC offre une mise-à-jour plus détaillée des données liées aux demandes de refuge.

SIGNIFICANT SEIZURES | SAISIES IMPORTANTES

Vancouver International Airport; Air Cargo; Pacific Region; Fentanyl seizure

On November 1, 2016, a Border Services Officer (BSO) examined a one piece FedEx shipment declared as "Organic". The shipment was arriving and was destined to an individual in Surrey, BC. On November 2, 2016, the BSOs took ion swabs of the foil packaging and utilized the headquarters enabled ion scan for fentanyl at the Vancouver International Mail Centre and the swab was positive for fentanyl. On November 18, 2016, a total of 255.8 grams of suspected fentanyl was seized for a value of \$ 71,624 CAD.

Douglas; Pacific Region; Firearms & Marijuana Seizure

Emerson; Prairie Region; Irregular Arrivals

On November 18, 2016, members of the RCMP arrived at the Emerson port of entry with six foreign nationals who were picked up north of the port. The foreign nationals are believed to be from _____ and are believed to have crossed into Canada illegally. All six made claims for asylum. (S1001775),

Ambassador Bridge; Southern Ontario Region; Port Runner

On November 18, at approximately 1320 ET, a United States plated vehicle failed to stop at primary at the Ambassador Bridge Port of entry. Video footage showed two confused looking male occupants slow down briefly as they passed the primary booth and then the vehicle continued on into Canada. Local authorities were contacted. (S1001764)

Aden; Prairie Region; Port Runner

On November 18, at approximately 1345 CT, a vehicle heading north bound on Hwy 880 did not stop to report to officers at the port of Aden. The vehicle was not travelling at a high rate of speed but still failed to stop. Subjects came back to the port approximately one hour later. Examination of the conveyance was non resultant. (S1001768)

Saint-Bernard-de-Lacolle; Région du Québec; Arrivées irrégulières

Le 18 novembre 2016, quinze demandes d'asile ont été traitées. Tous ont été ramenés par la Gendarmerie Royale du Canada (GRC). Les demandeurs d'asile font partie des pays d'origine suivants :
(S1001755)

Saint-Bernard-de-Lacolle; Région du Québec; Arrivées irrégulières

Le 19 novembre 2016, treize demandes d'asile ont été traitées. 10 des sujets ont été ramenés au port par la GRC. 22 demandes supplémentaires ont été reportées. Les demandeurs d'asile font partie des pays d'origine suivants :
(S1001781)

Saint-Bernard-de-Lacolle; Région du Québec; Arrivées irrégulières

Le 20 novembre 2016, 15 demandes d'asile ont été traitées. Sept des sujets ont été ramenés au port par la Gendarmerie Royale du Canada (GRC). Les demandeurs d'asile font partie des pays d'origine suivants :
(S1001794)

Saint-Bernard-de-Lacolle; Région du Québec; Arrivées irrégulières

Le 20 novembre 2016, durant la journée, la GRC a ramenés 12 personnes au point d'entrée. Ceci a porté à 34 le nombre de demande d'asile à traiter au port d'entrée. Le nombre de guérites ouvertes à la ligne d'inspection primaire a dû être réduit. Deux officiers d'un autre port sont venus aider ce qui a permis d'ouvrir une guérite supplémentaire et de garder le temps d'attente à moins d'une heure. Les demandeurs d'asile font partie des pays d'origine suivants :

Immigration, Refugees
and Citizenship Canada

Immigration, Réfugiés
et Citoyenneté Canada

Canada

Monitoring of Asylum Claims – Preliminary Data

Data as of May 9, 2017

Note to Audience

Disclaimers

- This dashboard is based solely on preliminary claims data which will vary from the verified claimant data posted on Open Portal. As the data is preliminary, it is subject to change and may not match IRCC official counts. Claims data varies from claimant data as claimant data eliminates the duplication of multiple attempts of an asylum seeker to enter the country as they are only eligible to claim asylum in Canada once. Claims data may include these multiple attempts to claim asylum.
- For requests concerning this dashboard or any asylum claims data, please contact the Operations Planning and Performance Branch's Refugee Mailbox (IRCC-OPPP@stats.gc.ca)
- Please consult Open Portal (<http://open.canada.ca/en/open-pa>) for verified claimants data. For any asylum claimant requests concerning Open Portal data or otherwise, please contact the Research and Evaluation Branch (stats@canada.gc.ca).
- Data is intended for **internal use** within IRCC, CBSA and RCMP only and has not yet been released to the public. For approval to release this report externally, please contact the Data Protocol Unit (DPU) at IRCC-DPU-UPD@stats.gc.ca.
- Data Source: Data is being pulled from GCMS by IRCC using the Enterprise Data Warehouse (EDW) for all slides except slide 6. IRCC is drawing data from the Master Business Reporting (MBR) for slide 6.

Purpose

- This dashboard monitors the weekly asylum claims intake by both CBSA and IRCC as well as RCMP interceptions. It focuses on asylum claims beings made by persons arriving via the US. It is primarily used for policy analysis and to facilitate informed decision making by senior management.

Monitoring of Asylum Claims – Preliminary Data

Data as of May 9, 2017

Interceptions – US - Canada Land Borders

Analysis

- Persons who cross into Canada from the US without passing through a land port of entry (POE) effectively evade the Safe Third Country Agreement (STCA). If no other section of the Immigration and Refugee Protection Act under s.101(1) is applicable to the refugee claimant, they are eligible to make an asylum claim in Canada (the STCA applies at land POEs and airports¹ but not inland).
- From 2015 to 2016, RCMP in Quebec have seen a 346% increase in interceptions. In 2016, there were 1,367 interceptions, where 600 of them occurred between November and December 2016.

Monitoring of Asylum Claims – Preliminary Data

Data as of May 9, 2017

Safe Third Country Agreement – Refusals (MBR)

Analysis

- Under the Safe Third Country Agreement (STCA) between Canada and the U.S. claimants are required to request protection in the first safe country they arrive in, unless they qualify for an exception to the agreement. These claims can be found ineligible at the port of entry (POE), or after referral to the Immigration and Refugee Board.

Monitoring of Asylum Claims – Preliminary Data

Data as of May 9, 2017

Asylum Snapshot – US - Canada Land Borders

Analysis

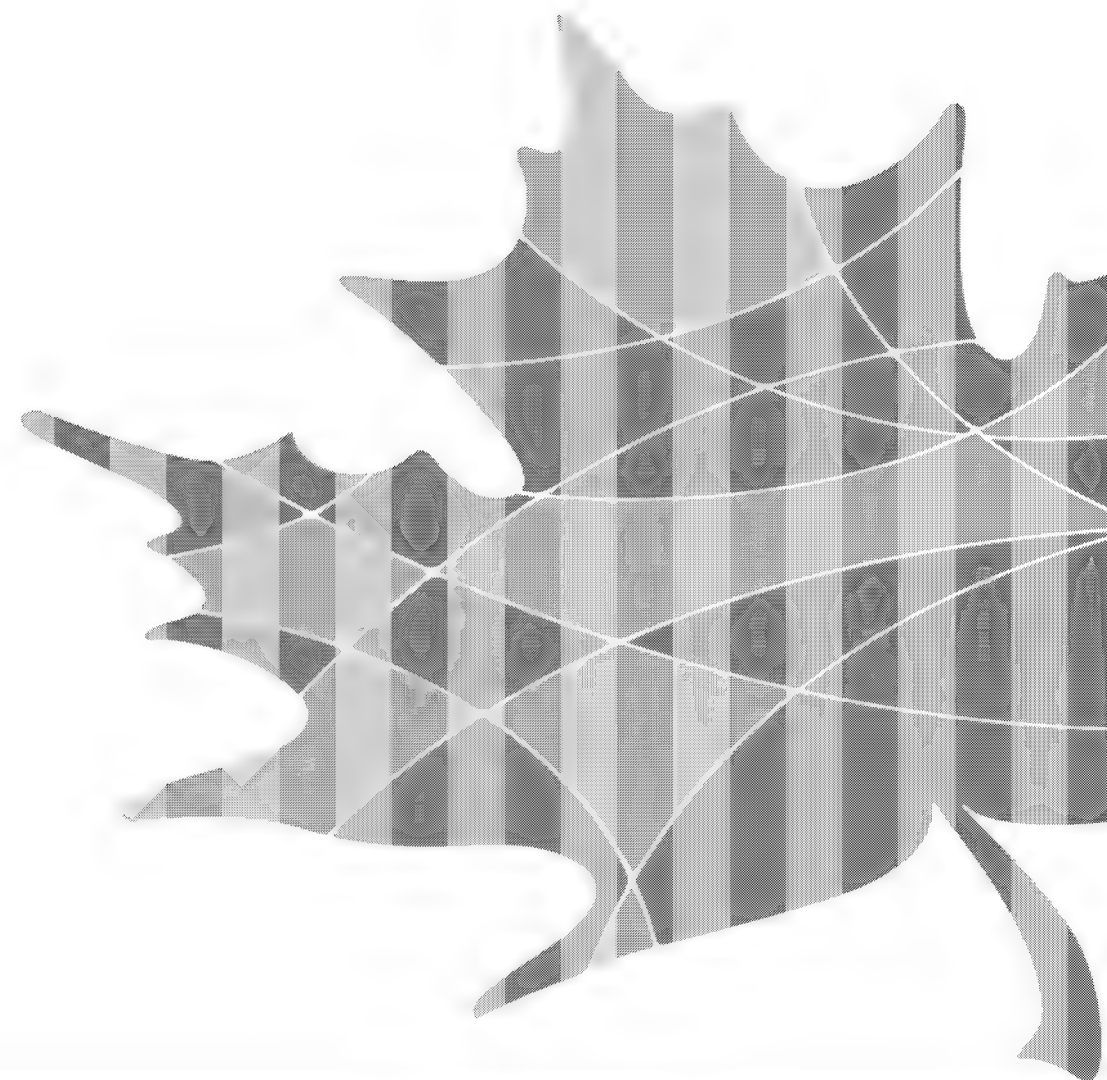

- Claims for those being intercepted and returned to the land border are sometimes processed at the land border instead of inland.
- Updates to the system have been implemented, which allow officers to identify in the system claims from individuals who entered Canada between the ports of entry.
- The highest peak for land border claims over the last ten years was observed in 2008 with 10,806 claims.

Note to Audience

Disclaimers

- This dashboard is based solely on preliminary claims data which will vary from the verified claimant data posted on Open Portal. As the data is preliminary, it is subject to change and may not match IRCC official counts. *Claims data varies from claimant data* as the latter eliminates any duplication of an individual's attempt at claiming asylum as asylum can only be claimed once in Canada. Claims data may include these multiple attempts to claim asylum.
- For requests concerning this dashboard or any asylum claims data, please contact the Operations Planning and Performance Branch's Refugee Mailbox (IRCC.OPP@ic.gc.ca)
- Please consult Open Portal (<http://open.canada.ca/en/open-pa>) for verified claimants data. For any asylum claimant requests concerning Open Portal data or otherwise, please contact the Research and Evaluation Branch (StatsRefugiesPRO@ic.gc.ca).
- Data is intended for **internal use** within IRCC, CBSA and RCMP only and has not yet been released to the public. For approval to release this report externally, please contact the Data Protocol Unit (DPU) at IRCC.DPU-UPD@ic.gc.ca.
- Data Source: Data is being pulled from GCMS by IRCC using the Enterprise Data Warehouse (EDW) for all slides except slide 6. IRCC is drawing data from the Master Business Reporting (MBR) for slide 6.

Purpose

- This dashboard monitors the weekly asylum claims intake by both CBSA and IRCC as well as RCMP interceptions. It focuses on asylum claims beings made by persons arriving via the US. It is primarily used for policy analysis and to facilitate informed decision making by senior management.

For Internal Use Only

Monitoring of Asylum Claims – Preliminary Data

Data as of May 15, 2017

Asylum Snapshot – Asylum Claims

Analysis

- Land border and inland claims include persons who cross into Canada from the US without passing through a port of entry, as well as persons intercepted at the border.

Monitoring of Asylum Claims – Preliminary Data

Data as of May 15, 2017

Interceptions – US - Canada Land Borders

Analysis

- Persons who cross into Canada from the US without passing through a land port of entry (POE) effectively evade the Safe Third Country Agreement (STCA). If no other section of the Immigration and Refugee Protection Act under s.101(1) is applicable to the refugee claimant, they are eligible to make an asylum claim in Canada (the STCA applies at land POEs¹).

Monitoring of Asylum Claims – Preliminary Data

Data as of May 15, 2017

Safe Third Country Agreement – Refusals (MBR)

Analysis

- Under the Safe Third Country Agreement (STCA) between Canada and the U.S. claimants are required to request protection in the first safe country they arrive in, unless they qualify for an exception to the agreement. These claims can be found ineligible at the port of entry (POE), or after referral to the Immigration and Refugee Board.

Monitoring of Asylum Claims – Preliminary Data

Data as of May 15, 2017

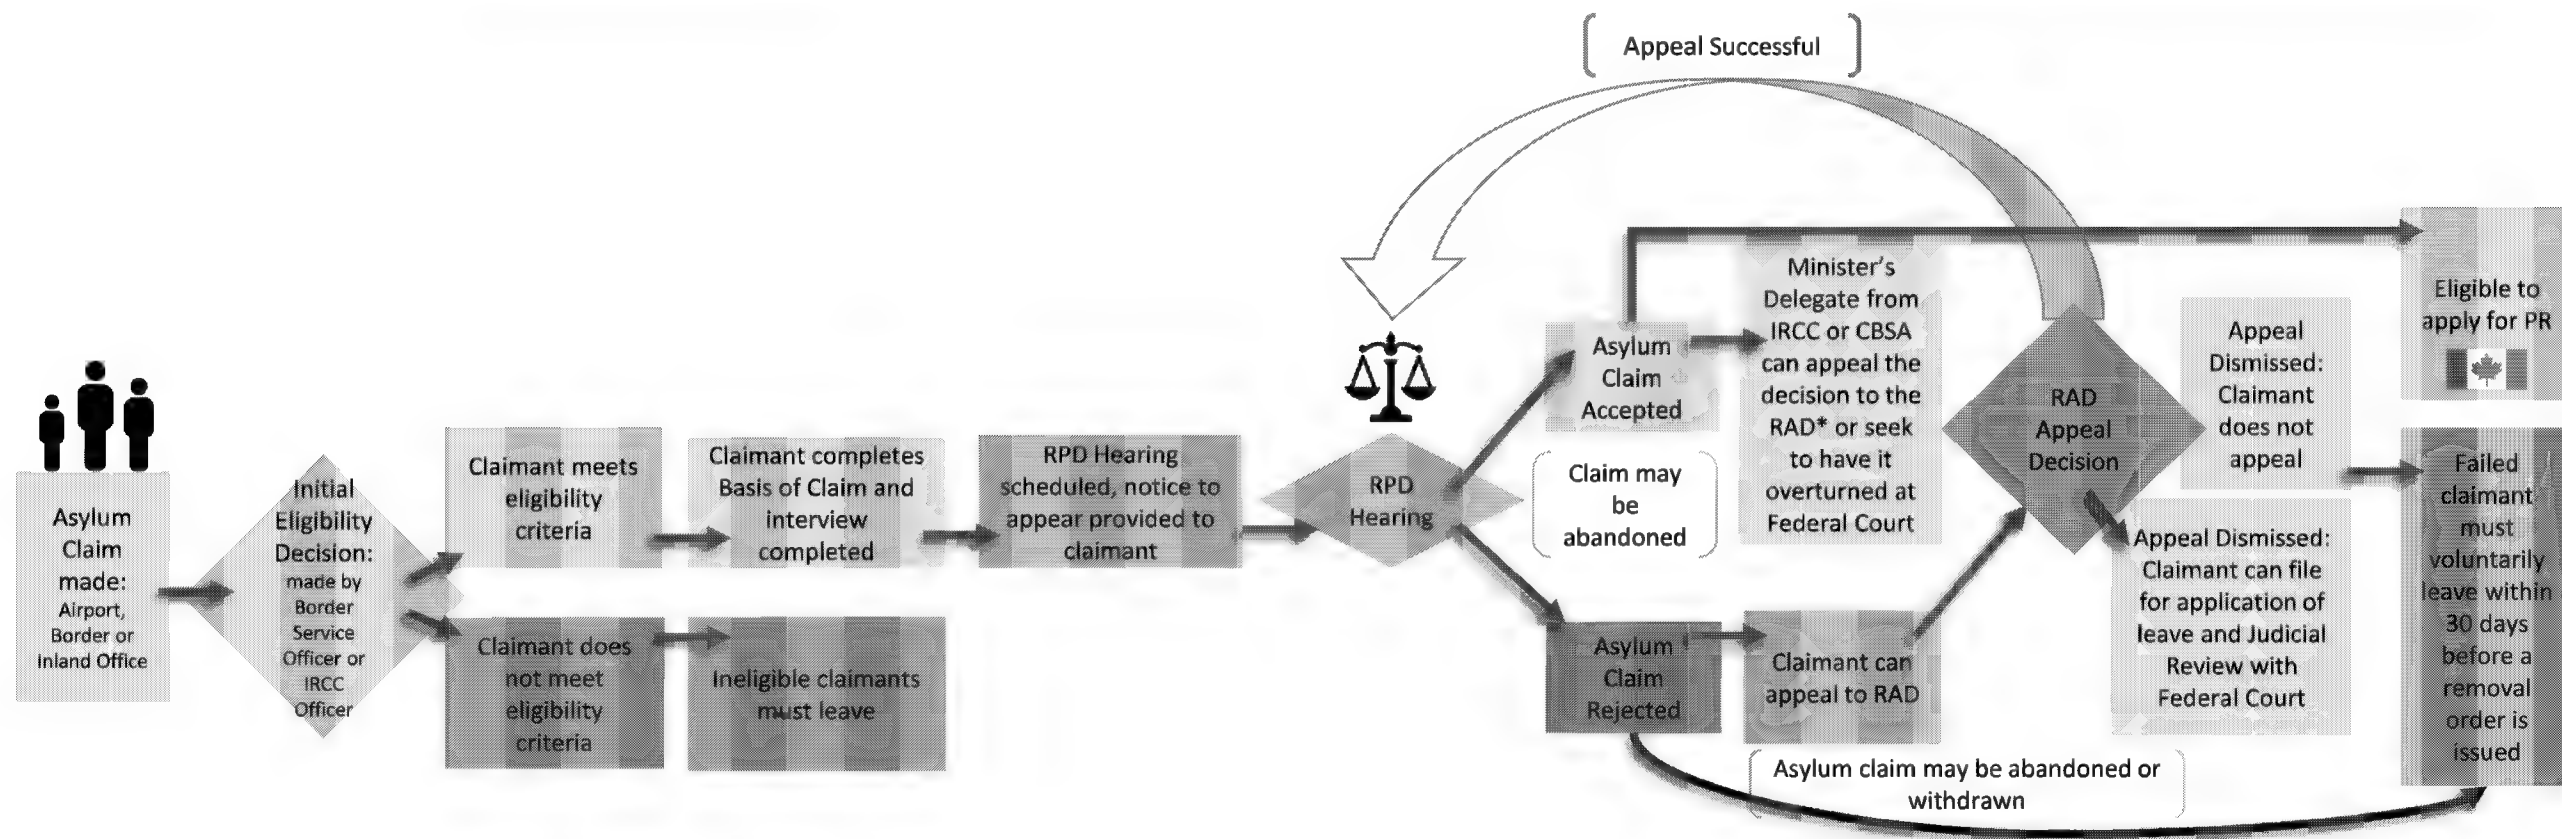

Asylum Snapshot – US - Canada Land Borders

Analysis

- Claims for those being intercepted and returned to the land border are sometimes processed at the land border instead of inland.

Note to Audience

Disclaimers

- This dashboard is based solely on preliminary claims data which will vary from the verified claimant data posted on Open Portal. As the data is preliminary, it is subject to change and may not match IRCC official counts. *Claims data varies from claimant data* as the latter eliminates any duplication of an individual's attempt at claiming asylum as asylum can only be claimed once in Canada. Claims data may include multiple attempts to claim asylum.
- For requests concerning this dashboard or any asylum claims data, please contact the Operations Planning and Performance Branch's Refugee Mailbox (IRCC-OPPP@stats.gc.ca)
- Please consult Open Portal (<http://open.canada.ca/en/open-pa>) for verified claimants data. For any asylum claimant requests concerning Open Portal data or otherwise, please contact the Research and Evaluation Branch (stats@open.gc.ca).
- Data is intended for **internal use** within IRCC, CBSA and RCMP only and has not yet been released to the public. For approval to release this report externally, please contact the Data Protocol Unit (DPU) at IRCC-DPU-UPD@stats.gc.ca.
- Data Source: Data is being pulled from GCMS by IRCC using the Enterprise Data Warehouse (EDW) for all slides except slide 6. IRCC is drawing data from the Master Business Reporting (MBR) for slide 6.

Purpose

- This dashboard monitors the weekly asylum claims intake by both CBSA and IRCC as well as RCMP interceptions. It focuses on asylum claims beings made by persons arriving via the US. It is primarily used for policy analysis and to facilitate informed decision making by senior management.

Subject: NEW Emerson Event Notification 'Notable Client interaction' S1007246-PRA01NOUVEAU Emerson Notification d'événement 'Interaction avec des clients éminents'
Categories: AXK135

English version *** La version française suit ***

A significant event affecting **Emerson, PRA** has been submitted by **Blake Peterson. 204-373-2841.**

Incident Reporting Criteria related to the event:

- **CBSA Image** : 'Notable Client interaction'

Brief Event Description: **Subject detained for suspicion of human smuggling at Emerson POE.**

Details/Updates:

****BXP064 27/08/2017 12:15****

At approximately 0420HRS CST, officers received a call from US Border Patrol stating that they could see on their cameras a silver car dropping what looked like asylum seekers off near Noyes, MN, just south of the town of Emerson. At 04:40 HRS CST, the family from _____ arrived at the Emerson POE, escorted by RCMP. As officers were interviewing the claimants, it became apparent that the silver car had dropped off the family. Moments later at 4:50HRS a silver car arrived at Primary, and the lone male indicated that he was driving to Winnipeg to "check it out". The driver was instructed to park his car and come in the office for an examination. Officers discovered two car seats in the vehicle and luggage that did not belong to the Subject. The Subject was detained at this point for suspicion of human smuggling. EIOD was contacted and instructed the officers to determine whether or not there was any money exchanged for the transportation of the family to the border. After an extensive exam, it was determined that the family only covered the cost of trip from Arizona to the border, and no additional fee was paid to the Subject. EIOD was informed of the results of the exam and based on the information decided not to pursue charges. Subject was released, and issued an allowed to leave. Subject has since returned to the US. Event concluded.

Any updates or developments should be provided by updating the log [S1007246-PRA01](#)

If additional information is at a PROTECTED B level, reply all to this email and encrypt your response. All non-protected information should be input into the log using the hyperlink above.

Employees in the Border Operations Centre are available to assist you with any questions regarding the reporting process at: English _____

Sprague; Prairie Region: Skimming equipment and Fraudulent Documents

On June 29, 2017, three citizens arrived at the Sprague Port of Entry (POE).

The Enforcement and Intelligence Operations Division (EIOD) networked with Calgary Police,

During the vehicle examination, 10.75 grams of marijuana and over 75 fraudulently obtained and/or fraudulently manufactured identification documents were found including Passports, Driver's Licenses, Birth Certificates and other various documents. A large

amount of stolen personal and commercial cheques were also located, along with card skimming equipment and hand tools. Officers arrested all three subjects for possession of property obtained by crime. The documents, manufacturing tools, knives, and other evidence were seized in consultation with EIOD and the subjects were transferred to the Royal Canadian Mounted Police (RCMP). **(S1005836;** |

Emerson; Prairie Region; Irregular Arrivals

On June 30, 2017, at 0443 CT, the RCMP Integrated Border Enforcement Team (RCMP IBET) arrived at the port of Emerson with six males and one female who were apprehended within Canada. All seven individuals are believed to have crossed the border between ports of entry and are now making a claim for refugee protection. The female is a citizen of [REDACTED], two males are citizens of [REDACTED] and four males are citizens of [REDACTED] (1005856)

SIGNIFICANT SEIZURES | SAISIES IMPORTANTES

Carway; Prairie Region; Port Runner

On September 19, 2017, at 1340 MT, a citizen left the Carway POE without reporting for further examination, as instructed at Primary. The Royal Canadian Mounted Police (RCMP) were contacted and the subject was reached by phone and agreed to return to the POE. The subject returned and explained she misunderstood the officer. The origin of her goods were verified and no seizure action was taken. **(S1007670)**

Gretna; Prairie Region; Power Outage

On September 19, 2017, from approximately 1630 CT to 1945 CT, the Port of Entry (POE) of Gretna and the town itself lost power. Traffic was processed manually and the POE was able to contact neighboring ports via telephone, as required. **(S1007676)**

-
- The Premier of Manitoba and a Minnesota Congressman have issued a joint news release to raise awareness about the issues around asylum seekers crossing into Canada between designated Ports of Entry (POEs). The release highlights the physical risks and warned that those who enter Canada by avoiding POEs will not necessarily be allowed to stay.
 - Programs Branch and CBSA Communications are monitoring.

<https://news.gov.mb.ca/news/index.html?item=41852&posted=2017-07-19>

- Non-essential employees at the Winnipeg Richardson International Airport have gone on strike. The employees – members of the Public Service Alliance's Union of Canadian Transport Employees – include duty managers, administrative workers, labourers etc. The strike does not impact baggage handling or air traffic control. It is unlikely that there will be impacts to CBSA operations. As of 06:00EST on July 24th, 2017, no flights were delayed at the airport.

- Media is reporting that the asylum seeker who damaged a cell at the Emerson port of entry, uttered threats, and allegedly assaulted a CBSA officer, is out on bail, highlighting that Canadian authorities cannot return him to the United States or detain him, unless he poses a danger. The executive director of the Canadian Council for Refugees notes that this is a rare case, and that the federal government is trying to identify better solutions for people who do not need to be in detention.
 - Case Management is monitoring and has a case chronology available.

The **TOP 20 SOURCE COUNTRIES** accounted for **65%** (15,513) of all claims in 2016.

53 countries saw at least **double as many claims** compared to 2015.

PROTECTED A

Total Refugee Claims Comparison

Claims filed at the **LAND BORDER** have increased **over 60%** since 2015 and **almost 90%** since 2014. Interceptions of persons who entered Canada **clandestinely between Ports of Entry** have increased significantly.

67% of the top 20 source countries are experiencing **violent conflict**.

Nationals of **12** of the top 20 source countries including Nigeria, China, India, are believed to be using organized **human smuggling** networks.

Nationals from **VISA EXEMPT, DESIGNATED COUNTRIES OF ORIGIN** accounted for **almost 50%** of all claims filed in the **AIR MODE**.

The most significant source region continued to be **Africa**, accounting for **32%** of all claims entered in 2016. Countries with significant increases were: Sudan, Djibouti and Zimbabwe.

Despite accounting for only **15%** of the total claims filed in 2016, the

Middle East region saw an **82%** increase over 2015.

Countries with noticeable increase were: Yemen, the Palestinian Authority and Saudi Arabia.

Forecast for 2017

PROTECTED A

In January 2017, **U.S.** President Trump issued three **Executive Orders** on immigration and border security. The orders placed restrictions on visitors and refugees from Iraq, Iran, Libya, Somalia, Sudan, Syria and Yemen; increased resources for immigration enforcement; and ordered the construction of a border wall with Mexico. At the time of reporting, the original travel ban and refugee Executive Order had been reversed by a federal judge, and replaced by a revised version which has also been challenged as of March 2017. The CBSA can expect an **influx of claimants arriving from the U.S.**; increased claims by long-term undocumented residents and more between the port entries.

It is expected that refugee claims will continue to rise in 2017. Claims will likely increase up to 40,000 and it is anticipated that top source countries will include Nigeria, Mexico, Hungary, Pakistan and Iraq.

There will be an **increase** in refugee claims filed at the land border and at inland offices by persons who entered **Canada clandestinely between ports of entry**.

Turkey is expected to be a top source country for refugee claims given the persisting aftermath of the failed coup.

Increasing **ANTI-MIGRANT RHETORIC** spreading across **Europe**, the rise of the **FAR-RIGHT**, **BREXIT** still being finalized, the reinforcement of borders and the EU in talks with migrant source countries to **STEM THE FLOW OF MIGRANTS**, Canada will likely become a preferred destination over Europe for those seeking refugee protection.

It is highly likely that claims filed by nationals of **Yemen** will continue to increase, given the ongoing conflict and worsening country conditions.

Nigeria will remain the top source country for the African region. With ongoing conflicts, simmering tensions and allegations of ethnic cleansing in the surrounding areas as well as in country, **Burundi, Somalia, the Sudan and the Congo DR** are each expected to account for at least 500 refugee claims by the end of 2017.

The rise of authoritarianism in countries such as weakening human rights and limiting personal freedoms, will likely be a key push factor in 2017.

REFUGEE HOST COUNTRIES
 Ten countries, all in the Middle East, Africa and South Asia, which represent only 2.5% of the global economy, host **half of the world's refugees**. Facing unsustainable situations, some, including **Pakistan, Lebanon and Kenya**, have begun to discourage refugees from arriving and to repatriate refugees to their home countries. As conditions in main shelter countries become intolerable and more governments close off routes, more individuals will seek to use clandestine channels to reach Canada.

The U.S. is considering **cutting its funding to the UN**. As the UN relies on member funding, should the U.S. significantly reduce its contributions, this could set a precedence for other countries to follow suit, impacting the UN's ability to react to events around the world. The **UNHCR** reports that it receives **86%** of its funding from governments and that they work in **128 countries** to help the world's displaced.

The lifting of the visa requirement on **Mexico** in December 2016 immediately led to an increase in claims. In 2017, Mexico is forecasted to be a top source country for refugee claims with the majority of claims to be filed at airports followed by inland offices and at the land border. Claims are anticipated to spike in the spring and summer months.

FORECASTED TOP SOURCE COUNTRIES

- Mexico
- Colombia
- Nigeria

Refugee Claims Analysis Report (RCAR) - Notes

The following report provides statistical information on the top 20 source countries for refugee claims in Canada for calendar year 2016 (January 1 to December 31), coupled with trend analysis, examination of push, pull and x-factors as well as forecasts for 2017.

Regions

Atlantic (ATL)
Québec (QUE)
Greater Toronto Area (GTA)
Northern Ontario (NOR)
Southern Ontario (SOR)
Prairie (PRA)
Pacific (PAC)

Migration Statistic Section

Visas is a general term used to refer to the total Temporary Resident Visas (TRVs), study permits, work permits, Temporary Resident Permits (TRPs), and all extensions that have been issued for entry into Canada; this does not include the total number of applications received.

Inadmissibility reports issued refers to the number of inadmissibility reports issued for serious allegations under the *Immigration and Refugee Protection Act* (IRPA) which consist of sections 34 (national security), 35 (crimes against humanity), 36(1) (serious criminality), 36(2) (criminality) and 37 (organized crime).

Quarters (Q)

Quarter (1) – January, February and March;
Quarter (2) – April, May and June;
Quarter (3) – July, August and September; and
Quarter (4) – October, November and December.

Data Extraction

Information on refugee claims for this report was retrieved from the , for the periods of January 1 to December 31, 2016, January 1 to December 31, 2015 and January 1 to December 31, 2014. Data was pulled January 9 and 10, 2017*.

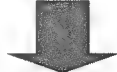

Information for TRVs, study permits, work permits, TRPs and extensions was retrieved from the for the period of January 1 to December 31, 2016. Data was pulled January 11, 2017*.

Information for inadmissibility reports issued for serious allegations was retrieved from the for the period of January 1 to December 31, 2016. Data was pulled January 9, 2017*.

Information on interceptions was retrieved from : for the period of January 1 to December 31, 2016. Data was pulled January 20, 2017*.

*Any subsequent data changes in the system were not captured.

Arrow Legend

	Indicates refugee claims have increased over 2015.
	Indicates refugee claims have decreased compared to 2015.
	Indicates refugee claims are either equal or almost equal to 2015.

2017 REFUGEE CLAIMS ANALYSIS REPORT (RCAR)

ENFORCEMENT & INTELLIGENCE OPERATIONS DIRECTORATE

Top Source Countries by Mode

From
**January 1 to
June 30, 2017,**
there were **18,561**
**REFUGEE
CLAIMS** filed
from **156**
different countries.

2017 saw a
85% increase
over the 10,045 claims
filed in the same time
period in **2016** and **58**
countries saw at least
double as many claims.

Mode Breakdown & Top Source Country

9	China	555	19	Yemen *	364
10	Syria	553	20	Afghanistan	301

* New to the top 20 source countries.

March, April and May doubled over their 2016 totals.

The key difference in 2017 from 2016, is the level of activity at the **LAND BORDER**. Claims filed are **less than 600 claims short** of the total seen in **all of 2016**. There has also been a significant increase in the number of persons entering Canada **between ports of entry.**

The **Americas** region saw a **25%** increase over what was seen in **all of 2016** accounting for the **second highest** total claims filed in 2017 (26%).

Countries with noticeable increases were: Haiti, the U.S. and Mexico.

KEY MOVEMENTS & PUSH FACTORS

- ♦ **Organized human smuggling** and varying levels of facilitation, from countries such as Burundi and Nigeria.
- ♦ Saudization pushing expatriates, from countries such as Eritrea and Sudan, to seek opportunities elsewhere.
- ♦ Large scale famine in South Sudan, Somalia and Nigeria.
- ♦ Threat of closure of the Dadaab refugee camp in Kenya could further destabilize the region.
- ♦ Deteriorating security situation in North Africa and Somalia.

- ♦ Influx of claimants at the land border with a significant number entering Canada **between the ports**, primarily from Haiti.
- ♦ Displacement due to criminal violence, for example in countries in the Northern Triangle.
- ♦ Worsening economic situations and political instability, in countries such as Brazil and Colombia.
- ♦ The unstable political, economic and security situation in Venezuela.

- ♦ Organized human smuggling networks.
 - India: fraud-altered bio-page Indian passports or TRVs obtained through misrepresentation.
 - Afghanistan: enter the Pacific region between the Ports with U.S. visas obtained through misrepresentation.
 - China: moving away from counterfeit TRVs to counterfeit PR cards.
- ♦ Deteriorating security situation in Afghanistan and Pakistan.

- ♦ The **U.S. is a main transit point** for irregular migrants from the Middle East, such as Iraq and the Palestinian Authority. Most are properly documented for travel to the U.S. and generally hold USNIVs.
- ♦ Saudization pushing nationals from Syria and Yemen to find opportunities elsewhere.
- ♦ UAE transit hub, connecting Asia and Africa to North America.
- ♦ Worsening famine conditions leading to food insecurity.

- ♦ There are indications that **downstream migration from Europe** has started to reach Canada. There have been several confirmed cases of failed EU asylum seekers seeking protection in Canada.
- ♦ There have been cases of persons filing **fraudulent claims**, failing to disclose that they held European status or nationality. These persons, mainly of Somali origins, fly to Canada on their European documents and later claim inland undocumented.

- ♦ A top x-factor influencing migration to Canada at this time is the U.S.' stance on immigration enforcement. Under the current administration, initiatives and policies have been adopted that aim to increase immigration enforcement actions, implement an expedited deportation process and limit who may apply for a U.S. visa or seek asylum.

This document is the property of the Canada Border Services Agency (CBSA) and should not be reclassified or disseminated without prior consent of the originator. The information must be stored, transmitted, and safeguarded in accordance with its classification level, as outlined in the Government Security Policy and the CBSA Security Policies. If access is requested under the Access to Information Act or the Privacy Act, no decision should be taken without prior consultation with the originator, as the information may be subject to exemptions. Requests for additional use should be forwarded to the Intelligence Tactical Operations Centre.

This report consists of January to June 2017 statistics from the CBSA and the Immigration, Refugees and Citizenship Canada (IRCC) and should not be taken as belonging solely to the CBSA.

Refugee claims are on track to surpass at least 40,000 by the end of 2017. It is anticipated that the top source countries will include Haiti, Nigeria, Turkey, Pakistan and the U.S. The CBSA can continue to expect an influx of claimants from the U.S., including third country nationals as well as U.S. born minors. It is expected that claimants who enter Canada between the ports will either be persons whose status is dependant upon their U.S. Temporary Protected Status designation or unauthorized residents.

There will continue to be an **influx** of claimants at the **land border** and at **inland offices** who have entered **Canada clandestinely between the ports**. In relation, it can be anticipated that more focus by media and refugee advocacy groups will be placed on the **Safe Third Country Agreement**.

BREXIT, anti-migrant rhetoric and tensions over migration persist in **Europe** with the EU looking to **STEM THE FLOW OF MIGRANTS**. As migrants are turned away, downstream migration to Canada will take place.

With the visa requirements to be lifted on **Bulgaria** and **Romania** in December 2017, the CBSA can expect to see a spike in claims filed by nationals from both countries, but mainly from Romania.

With the economic downturn, political instability, allegations of corruption and Canada introducing new entry rules for eligible nationals of **Brazil** to enter Canada on an eTA, nationals of **Brazil** as well as third country nationals living there may seek entry into Canada making it a country to watch in 2017.

With violent conflicts, simmering tensions and worsening famine conditions among other factors, **Eritrea, Somalia** and **Burundi** are expected to each account for at least 1,000 claims. A significant increase in claims is expected from **Djibouti** and the **Sudan** by the end of 2017.

A key **pull factor** for migrants is Canada's reputation as being welcoming and embracing diversity, gained through its portrayal in international media. Through commitments and statements issued by Canadian authorities, Canada has emerged as a beacon in the international community. Other draws include: close proximity to the U.S.; family reunification; freedom for LGBTQ2 individuals; and a lack of paramilitary, religious and political violence.

It has been reported that the U.S. plans to **cut funding** to the **UN Population Fund**, an agency focused on issues related to family planning as well as maternal and child health (i.e. **female genital mutilation**) in 150 countries. There have been reports that the **UN** plans to decrease funding to **peacekeeping missions**, such as the ones in the Darfur region of the Sudan and the Democratic Republic of the Congo, which could adversely impact their effectiveness. The UN relies on member funding and if members reduce their contributions, the ability of the UN to react to global events will be negatively impacted.

Migration Statistic Section

Visas is a general term used to refer to the total Temporary Resident Visas (TRVs), study permits, work permits, Temporary Resident Permits (TRPs), and all extensions that have been issued for entry into Canada; this does not include the total number of applications received.

Inadmissibility reports issued refers to the number of inadmissibility reports issued for serious allegations under the *Immigration and Refugee Protection Act* (IRPA) which consist of sections 34 (national security), 35 (crimes against humanity), 36(1) (serious criminality), 36(2) (criminality) and 37 (organized crime).

Quarters (Q)

Quarter (1) - Q(1) - January, February and March;
Quarter (2) - Q(2) - April, May and June.

Time Periods

Mid-Year 2017 - January 1 to June 30, 2017
Mid-Year 2016 - January 1 to June 30, 2016
2016 - January 1 to December 31, 2016
2015 - January 1 to December 31, 2015

Data Extraction

Information on refugee claims for this report was retrieved from the for the periods of January 1 to June 30, 2017, January 1 to June 30, 2016, January 1 to December 31, 2016 and January 1 to December 31, 2015. Data was pulled July 10, 2017*.

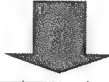

Information for TRVs, study permits, work permits, TRPs and extensions was retrieved from the for the period of January 1 to June 30, 2017. Data was pulled July 10, 2017*.

Information for inadmissibility reports issued for serious allegations was retrieved from the or the period of January 1 to June 30, 2017. Data was pulled July 10, 2017*.

Information on interceptions was retrieved from or the period of January 1 to June 30, 2017. Data was pulled August 10, 2017*.

*Any subsequent data changes in the system were not captured.

Arrow Legend

	Indicates refugee claims have increased over mid-year 2016.
	Indicates refugee claims have decreased compared to mid-year 2016.
	Indicates refugee claims are either equal or almost equal to mid-year 2016.

Please note that, due to high volumes, the numbers for asylum claims processed by CBSA's Quebec region are under-reported in the document.

Veuillez noter qu'en raison des volumes élevés, les nombres pour les demandes d'asile traitées par la région du Québec de l'ASFC sont sous-évalués dans le document.

****Note that we have now proceeded to extracting the refugee claims data from a new immigration reporting system. This will explain the increase/decrease in some regions/modes as the old system was based on the "eligibility decision office" and the new system is based on the "primary office" of the refugee case.**

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 27, 2017

Note to Audience

Disclaimers

- This dashboard is based solely on preliminary claims data which will vary from the verified claimant data posted on Open Portal. As the data is preliminary, it is subject to change and may not match IRCC official counts. Claims data varies from claimant data as the latter eliminates any duplication of an individual's attempt at claiming asylum as asylum can only be claimed once in Canada. Claims data may include multiple attempts to claim asylum.
- While significant progress has been made, due to the volume of intercepts in July and August, there remains a small number of claimants that are not included in the reported data. These outstanding claimants will be entered in the system and backdated accordingly to reflect the actual claim date.
- For requests concerning this dashboard or any asylum claims data, please contact the Operations Planning and Performance Branch's Asylum Mailbox (IRCC.OPP@regimmigration.gc.ca).
- Please consult Open Portal (<http://openportal.ca/en/open-portal>) for verified claimants data. For any asylum claimant requests concerning Open Portal data or otherwise, please contact the Research and Evaluation Branch (IRCC.RE@regimmigration.gc.ca).
- Data is intended for internal use within IRCC, CBSA and RCMP only and has not yet been released to the public. For approval to release this report externally, please contact the Data Protocol Unit (DPU) at IRCC.DPU@regimmigration.gc.ca.
- Data Source: Data is being pulled from GCMS by IRCC using the Master Business Reporting (MBR) for all slides except for slides 6-8, 12, 14-16, these slides are based on data provided by the RCMP.
- Please note the data included in slide 14 is an estimation of claimants awaiting eligibility decisions. It is based on client identifiers (e.g. UCI) created at the St. Bernard Lacolle (POE) by the CBSA between June 1, 2017 and December 27, 2017 which have yet have to receive an eligibility decision. Furthermore, the volumes contain both regular and irregular asylum seekers.

Purpose

- This dashboard monitors the weekly asylum claims intake by both CBSA and IRCC as well as RCMP interceptions. It focuses on asylum claims beings made by persons arriving via the US. It is primarily used for policy analysis and to facilitate informed decision making by senior management.

For Internal Use Only

Monitoring of Asylum Claims – Preliminary Data

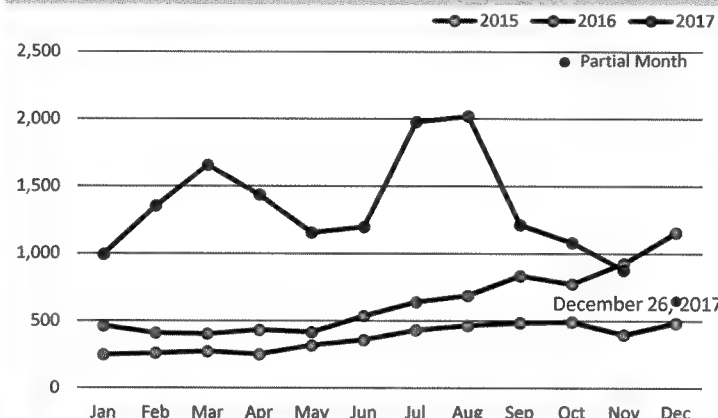

Data as of Dec. 27, 2017

Asylum Snapshot – Asylum Claims

Analysis

- Land border and inland claims include persons who cross into Canada from the US without passing through a port of entry who are then intercepted and brought to an IRCC/CBSA office for processing.
- From January 1 to December 26, 2017 there were 11,783 asylum claims made at land border offices, compared to 7,187 over the same period last year, an increase of 64%.
- There were 33,955 asylum claims made at inland offices** compared to 13,367 over the same period last year, an increase of 154%. Of the inland claims this year, 3,826 (or 11%) were from persons who reported the US* as their last country of residence.
- Any asylum claim entered in GCMS where the officer made an eligibility decision becomes available for reporting the next day, provided there is no system issue. However, under the IRPA, officers have three working days to make an eligibility decision, after which the claim is deemed referred to the Immigration and Refugee Board.
- As such, asylum intake data is considered to be "stable" only after 5 days following the claim.

Monitoring of Asylum Claims – Preliminary Data

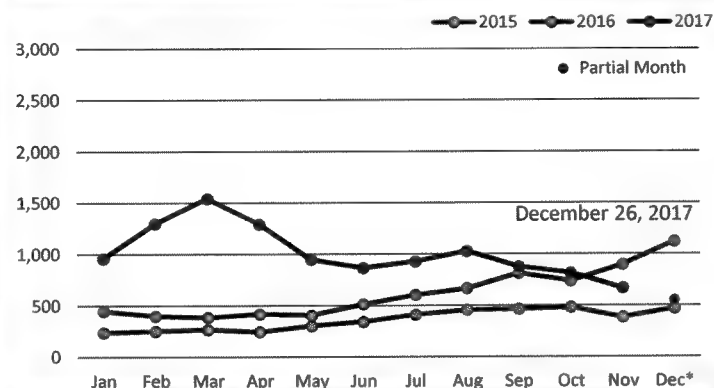

Data as of Dec. 27, 2017

Asylum Snapshot – Asylum Claims

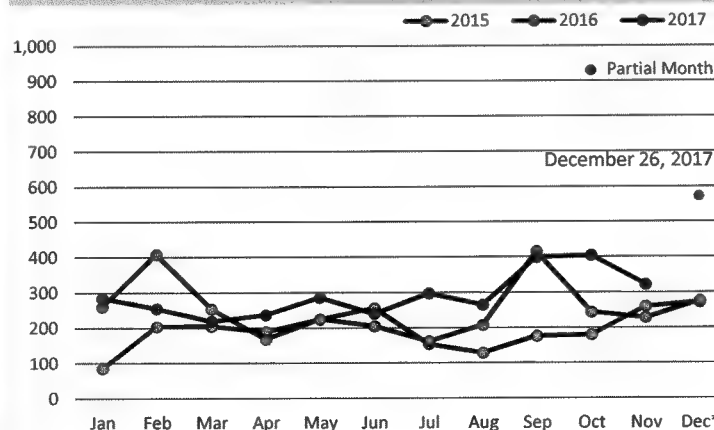

Analysis

- Asylum claims intake at both land border and inland offices have increased steadily during the past 3 years.
- Asylum claims intake at the land borders began to increase at a greater rate in June 2016, and peaked in March 2017; with a 299% increase when compared to March 2016.
- In November 2017, there was a 25% decrease in asylum claims made at border offices when compared to the same period last year.
- Intake at inland offices have experienced consistent year over year increases for similar months since 2015. However, beginning July 2017, there was a surge of interceptions at the Lacolle border. These individuals were initially processed by the RCMP and CBSA, then transported to the Montreal inland office for asylum processing.
- Asylum claim volumes at airport POEs spiked in December 2017, with 220 claims made between December 17th to December 26th. The majority of these claims were made by citizens of India (66); Romania (37); and Hungary (66).

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 27, 2017

Asylum Snapshot – Citizenship and Demographics

Analysis

- From January 1 to December 26, 2017, Haiti was the top country of citizenship for both border and inland claims. For land border offices, the claims figure stood at 1,297 while for inland offices, the claims numbered 6,536. Mexico took the top spot for airport at 708 claims.
- For the same period last year, Haitian claims at the land border ranked 12th with 215 claims; Haitian claims inland ranked 9th with 356 claims; and, Mexican claims at airports ranked 6th with 95 claims.
- Countries with the highest asylum claims for the same reporting period last year are as follows:
 - Border - Colombia (621 asylum claims)
 - Inland - Nigeria (1,162 asylum claims)
 - Airports - Hungary (974 asylum claims)

**While significant progress has been made, due to the volume of intercepts in July and August, there remains a small number of claimants that are not included in the reported data.

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 27, 2017

Interceptions – US - Canada Land Borders

Analysis

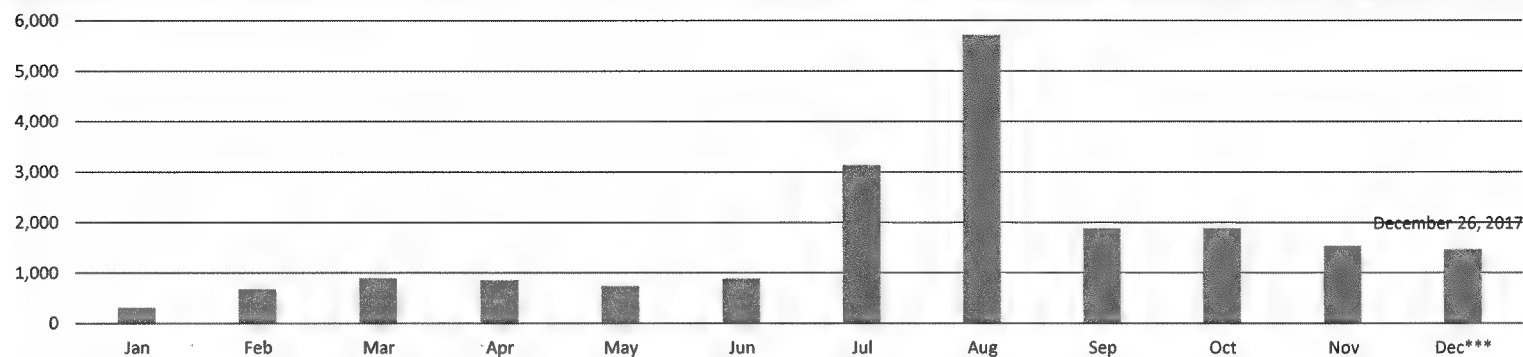

- Persons who cross into Canada from the US without passing through a land port of entry (POE) effectively evade the Safe Third Country Agreement (STCA). If no other section of the Immigration and Refugee Protection Act under s.101(1) is applicable to the refugee claimant, they are eligible to make an asylum claim in Canada (the STCA applies at land POEs¹).

- Interceptions for Quebec peaked in August (5,530) and surpassed the previous month's record high intake (2,996).
- Of total border claims and interceptions (31,919) between January 1 and December 26, 2017, 63% effectively evaded the STCA but were intercepted by the RCMP.

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 27, 2017

Asylum Snapshot – Intercepted Persons in Quebec Between June 30, 2017 and December 18, 2017

Disclaimers and Caveats

- Sample size for this analysis is 14,537 claimants intercepted by the RCMP in Quebec between June 30, 2017 and December 18, 2017.
- All counts are preliminary.
- Data is self-reported by intercepted persons.
- Data is a sample and may not be representative of the greater intercepted population.
- Unknown reflects a data field that has not been completed.

Analysis

For the June 30th to December 18th reporting period:

- Haitians remain the top source country for RCMP intercepts at Lacolle; however, weekly intercept counts have been decreasing since the second week of August.
-
-

Note: Data has been extracted from manually maintained RCMP spreadsheets. As the data is preliminary, it is subject to change and may not match IRCC official counts.

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 27, 2017

Asylum Snapshot – Intercepted Persons in Quebec Between December 19, 2017 and December 25, 2017

Disclaimers and Caveats

- Sample size for this analysis is 442 claimants intercepted by the RCMP in Quebec between December 19, 2017 and December 25, 2017.
- All counts are preliminary.
- Data is self-reported by intercepted persons.
- Data is a sample and may not be representative of the greater intercepted population.

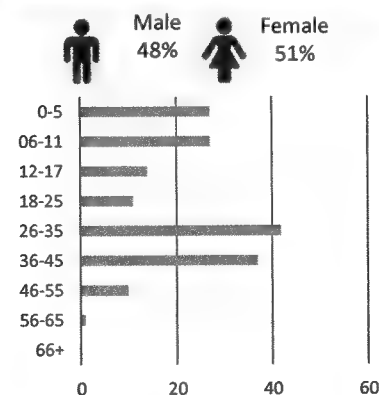

Analysis

- The proportion of [redacted] intercepts remains steady with 66%. Out of 290 Nigerians intercepted, 231 had valid US visas (80%).
- The proportion of [redacted] intercepts remains steady.

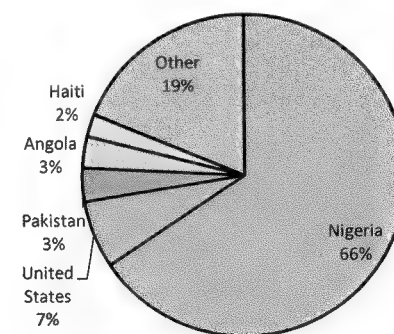

Note: Data has been extracted from manually maintained RCMP spreadsheets. As the data is preliminary, it is subject to change and may not match IRCC official counts.

Gender and Age Groups

Nationalities of Asylum Claimants

*Age groups for the above graph have been extracted from 1BR and captures all irregular migrants in Quebec. Due to the Quebec inventory, age and gender counts are not complete.

n.b.: Due to rounding, percentages may not add up to 100%

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 27, 2017

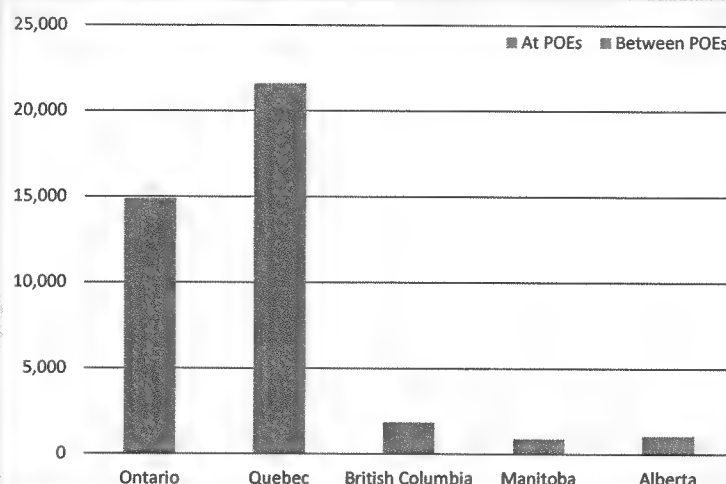

Between POEs - Irregular Migration

Analysis

- The report below is based on Refugee Claims where the client was flagged as crossing "In-Between" ports of entry on the Examination record in GCMS. Information on Irregular Migrants may be presented in three different ways depending on the purpose; the number of RCMP interceptions, the number of CBSA Examinations on irregular migrants, or the number of Refugee Claims made by irregular migrants. This report is not expected to match other reports based on the other populations.
- Between April 1, 2017 and December 26, 2017, 73% of all asylum claims in Manitoba were between Ports of Entry. For the same time period, in Quebec* and British Columbia, 70% and 39% of claims were between Ports of Entry.
- Between April 1, 2017 and December 26, 2017, there have been 17,970 irregular migrants. Top source countries of irregular migrants include Haiti, Nigeria, and the USA.

*While significant progress has been made, due to the volume of intercepts in July and August, there remains a small number of claimants that are not included in the reported data.

Monitoring of Asylum Claims – Preliminary Data

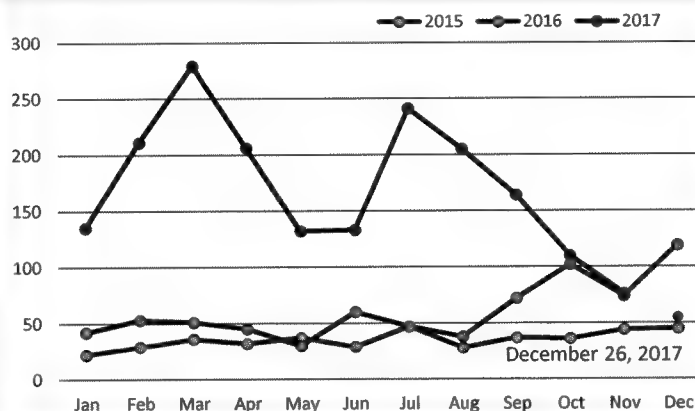

Data as of Dec. 27, 2017

Safe Third Country Agreement – Refusals

Analysis

- Under the Safe Third Country Agreement (STCA) between Canada and the U.S. claimants are required to request protection in the first safe country they arrive in, unless they qualify for an exception to the agreement. These claims can be found ineligible at the port of entry (POE), or after referral to the Immigration and Refugee Board.
- From January 1, 2017 to December 26, 2017 there have been 1,947 asylum claims determined to be ineligible under the STCA, an increase of 19 from last week. This represents a 178% increase when compared to the same reporting period last year (700). This increase is a recent trend as these refusals began to increase in October 2016.
- From January 1, 2017 to December 26, 2017 there have been 506 Haitian asylum seekers who have been determined to be ineligible under STCA.
- All POEs are issuing greater STCA refusals. Most notably, Lacolle with a 260% increase, followed by Rainbow Bridge with a 182% increase when comparing to January 1, 2016 to December 26, 2016 STCA refusals.

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 27, 2017

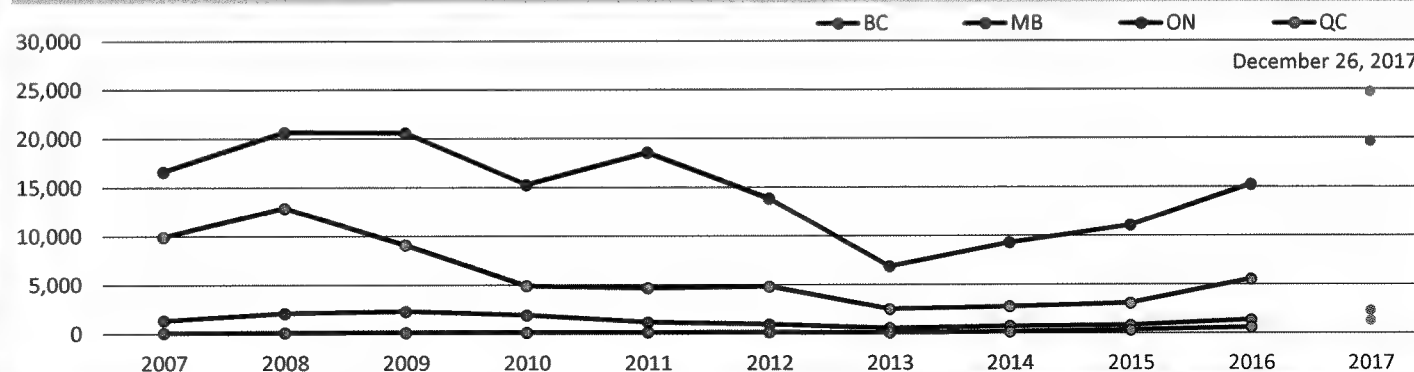

Asylum Snapshot – Provincial Statistics

Analysis

- From January 1 to December 26, 2017, Quebec received 24,705 claims, surpassing Ontario's claims intake for the first time in 10 years.
- Ontario received a total of 19,628, while British Columbia received 2,319 and Manitoba received 1,300 claims.
- For the remaining provinces (with the exception of Alberta) and territories, intake has remained relatively steady with low to minimal claim intake.
- Claims in Manitoba continue to be predominantly from Somalia, Djibouti and Ghana nationals with some additional nationalities of Eritrean and Nigerian.
- The large majority of land border claims in Manitoba are made by single males.
- Claims in Quebec have recently been predominantly from Nigerian nationals.

*While significant progress has been made, due to the volume of intercepts in July and August, there remains a small number of claimants that are not included in the reported data.

Monitoring of Asylum Claims – Preliminary Data

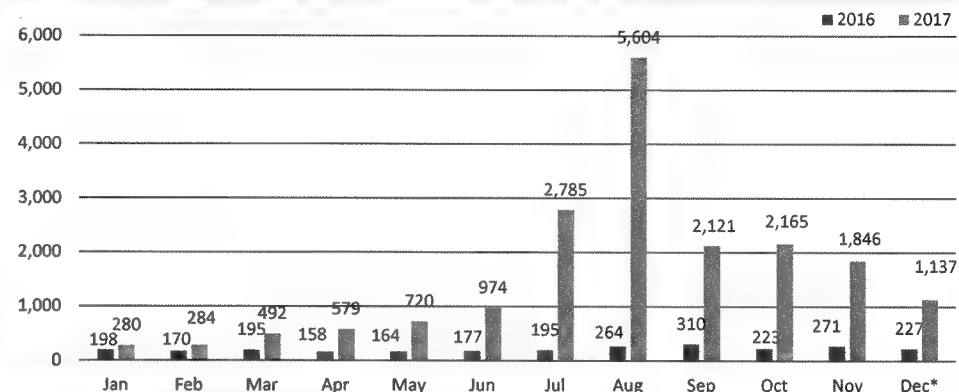

Data as of Dec. 27, 2017

Asylum Snapshot – Provincial Statistics - Quebec

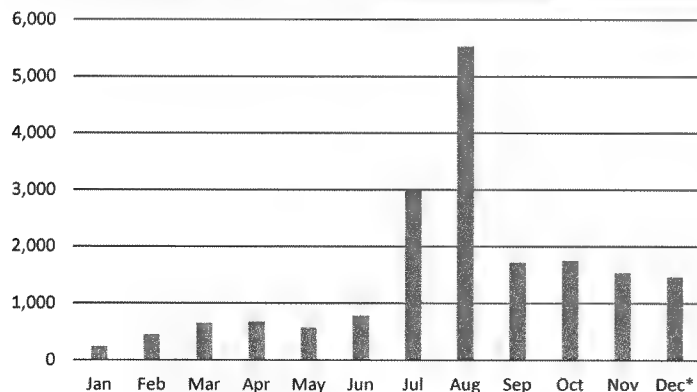

Claims Received at Land Border in Quebec - Monthly

Claims Received Inland** in Quebec - Monthly

Monthly RCMP Intercepts (since January 1, 2017)

*Results for 2017 includes December 1-26, 2017

Profile of Claims at Quebec Inland Offices and Land Border (since January 1, 2017)

Gender Distribution

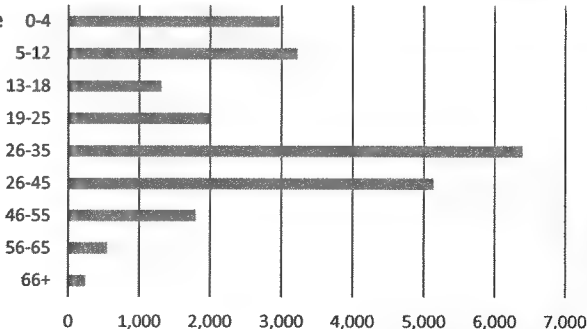

Male
55%

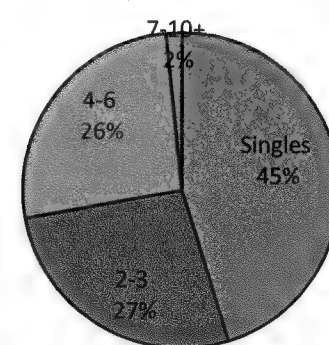

Female
45%

Age Breakdown

Family Size Breakdown

****While significant progress has been made, due to the volume of intercepts in July and August, there remains a small number of claimants that are not included in the reported data.

**As a result, the estimated inventory rests at an estimated 857.

Monitoring of Asylum Claims – Preliminary Data

Data as of Dec. 28, 2017

Quebec Asylum Daily Snapshot: Inventory - No Eligibility Interview Completed

Notes:

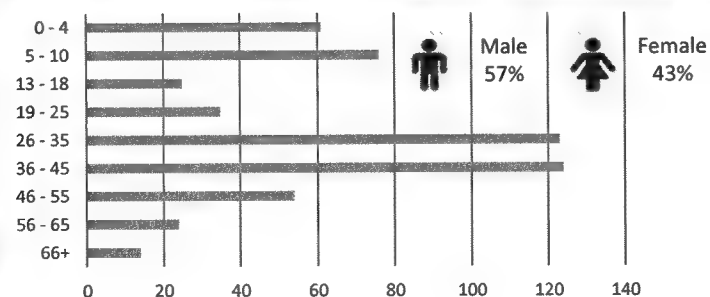

- Please note the data included in slide 13 is an estimation of claimants awaiting eligibility decisions. It is based on client identifiers (e.g. UCI) created at the St. Bernard Lacolle (POE) by the CBSA between June 1, 2017 and December 27, 2017 which have yet have to receive an eligibility decision.
- Furthermore, the volumes contain both regular and irregular asylum seekers.
- Unique Client Identifiers (UCI) are created at the Port of Entry (POE); however, current inventory for the processing of refugee applications in the Global Case Management System (GCMS) is currently up to five months once the eligibility interview takes place. However, new arrivals are now having their eligibility interviews conducted within a week.
- Please note these volumes are **under-reported and subject to change as claimant information is inputted into system.**

Inventory Data: Demographics for UCIs Created in GCMS between June 1, 2017 and December 27, 2017 without an Eligibility Interview Completed

*Updated every Friday.

*Irregular migrants only began moving to other provinces when processing delays started in July

*Although the asylum claims were by processed by the GoC in provinces other than Quebec, this does not confirm client's province of residency. While awaiting eligibility decisions, asylum claimants have the freedom of mobility within Canada.

Monitoring of Asylum Claims – Preliminary Data

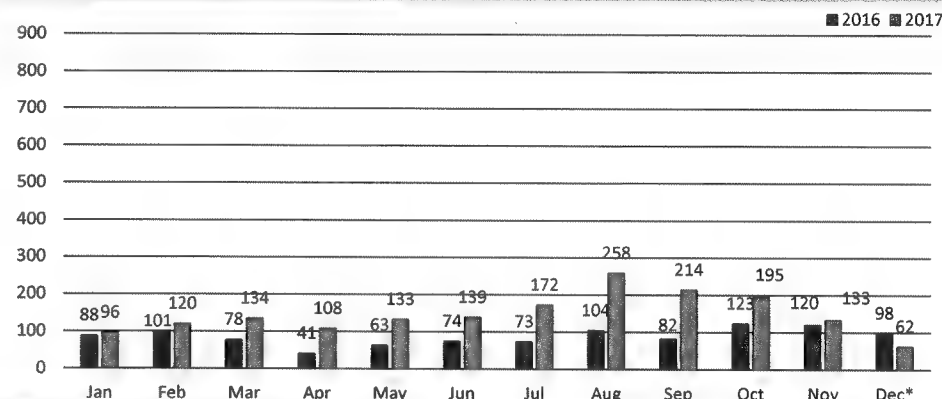

Data as of Dec. 27, 2017

Immigration Refugee Board – Referred Refugee Protection Claims

Analysis

- All data on this slide is preliminary and subject to change. It is provided by IRCC and therefore may not match IRB official counts.
- From January 1 to December 26, 2017, the IRB received 33,350 claims referred from Inland offices compared to 13,266 for the same period last year, an increase of 151%.
- The IRB received 9,084 claims referred from the border compared to 6,276 in 2016, an increase of 45%.
- The IRB received 3,405 claims referred from the airport in comparison to 2,596 for the same time period in 2016, an increase of 31%.

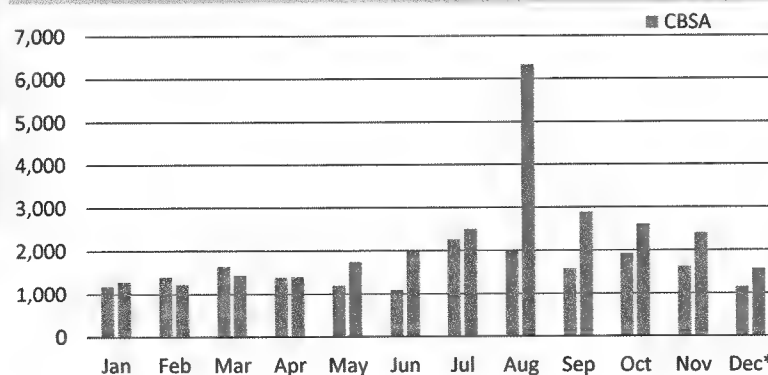

- Notes:
- Data only includes applications referred as of January 1, 2017 that have reached an outcome.
 - "Negative" includes all Negative, Abandoned, Withdrawn and Other decisions.

Status of Claims Received Since January 1, 2017 by Border, Inland and Airport

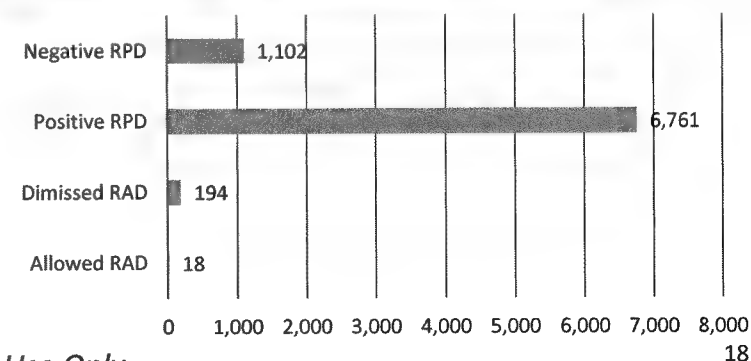

Note:
• Data does not include appeals to Federal Court or Removals.

IRCC and CBSA Referrals to IRB by Month (2017)

*Results for 2017 includes December 1-26, 2017

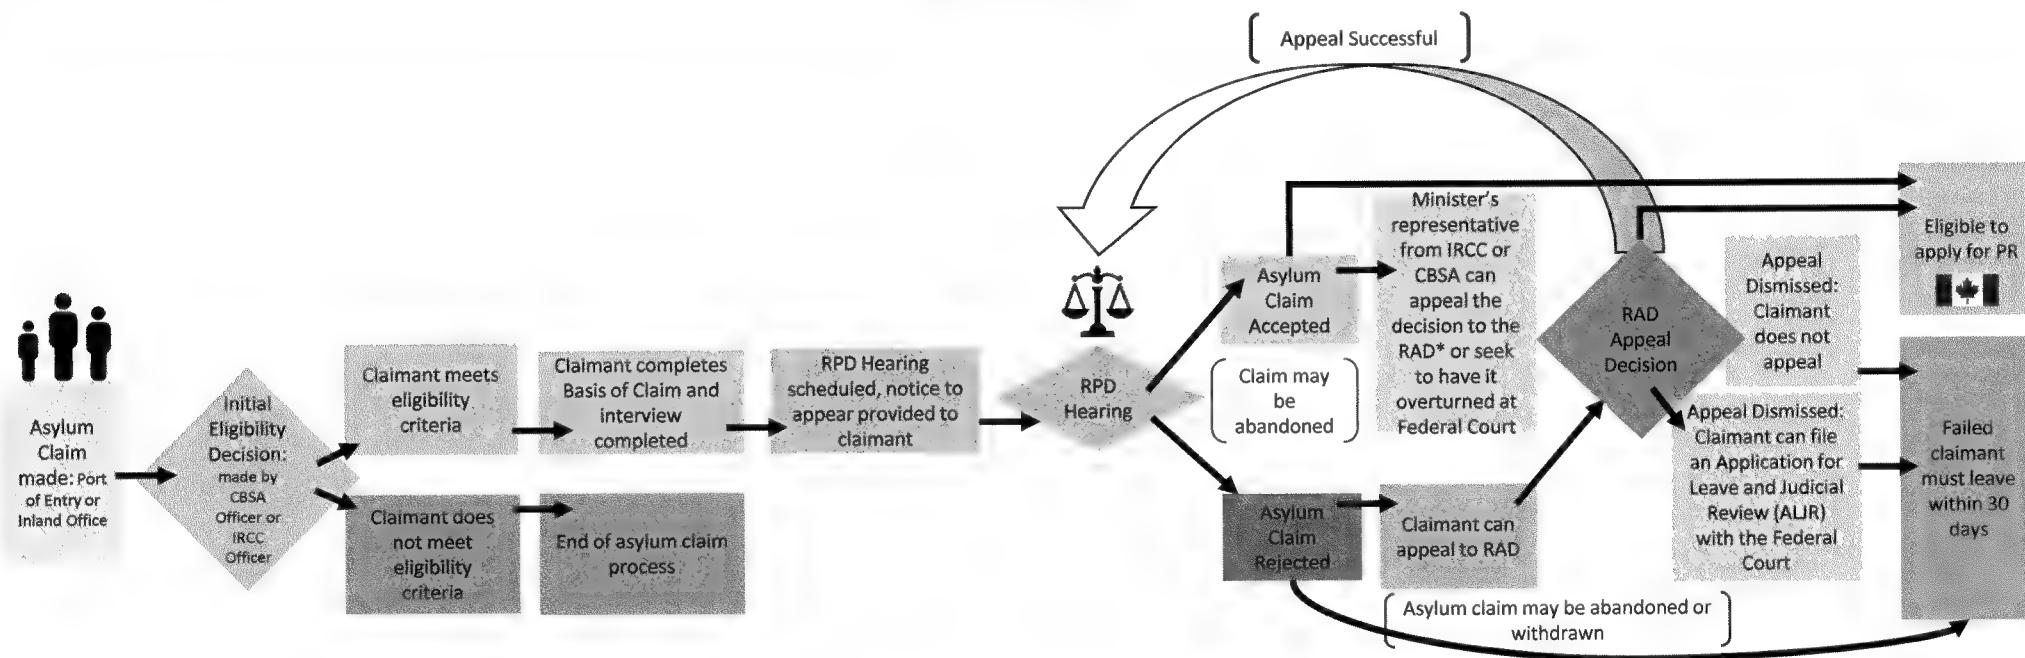

Final Outcomes at IRB on Claims Received in 2017 (since Jan 1, 2017)
